

MISSION OF THE ALABAMA SCOTTISH RITE FOUNDATION

The Mission of the Alabama Scottish Rite Foundation is to make a positive difference in the lives of dyslexic children in Alabama by assisting them in achieving their highest potential.

The Scottish Rite Masons of Alabama can point with pride to our Foundation's success in carrying out our stated mission of assisting children. The Scottish Rite Dyslexia Program designed to identify and intervene in learning difficulties associated with Dyslexia, is now in use in more the 1/3 of our states public school systems as well as some private systems. Most of the systems in Northwest Alabama area now utilize the Scottish Rite Program and are reporting very successful results. The professionals associated with our program are representing our Fraternity in an excellent manner through the conducting Teacher Seminars and individual testing of children.

As our program grows, Foundation resources are being stretched to provide materials and services needed by the participating School Systems. In some areas of the State, scheduling of individual testing has been "placed on hold" until some of the backlog can be worked through. Such demand indicates how critically such a program as ours was needed on a State Wide basis. Our previous limited efforts at the University of Montevallo did not prepare us for the demand which materialized when the Foundation Board elected to offer the program to all School Systems in the State.

The support of Scottish Rite Masons is essential to the continued success of this program. Below is a Commitment Card for your consideration. You are encouraged to lend whatever financial support you are able to contribute. The form may be returned to our Valley Secretaries or sent directly to the Foundation Office. All responses will be treated confidentially by the Valley or Foundation offices.
